

Let's talk about FAIR data...

**"FAIR data?
My data is already published
- in a research article."**

Let's talk about FAIR data...

“FAIR data is much more than a description in a printed article – FAIR data can be re-used directly for new research projects”

www.vidensportal.deic.dk/FAIR

FAIR data are: **F**indable, **A**ccessible, **I**nteroperable and **R**eusable.

Making your data FAIR means maximizing the project's output, increasing your impact and enhancing your recognition as a researcher.
