

Let's talk about FAIR data...

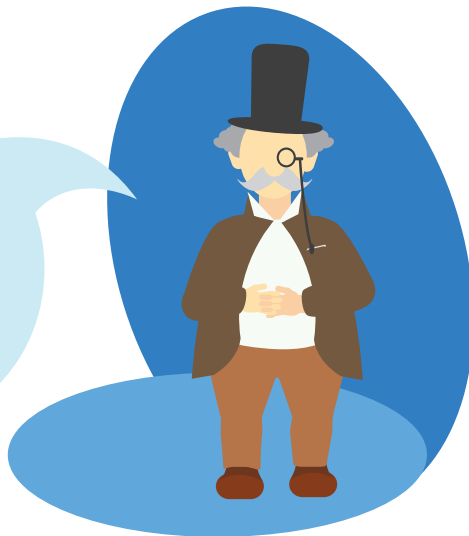

**“FAIR data?  
There is no need to try out  
something new  
and do more than  
necessary”**

Let's talk about FAIR data...

"The principles for FAIR data  
are not new  
– they are based on  
what researchers  
have been doing  
for a long time."

[www.vidensportal.deic.dk/FAIR](http://www.vidensportal.deic.dk/FAIR)

FAIR data are: **Findable, Accessible, Interoperable and Reusable.**

Making your data FAIR means maximizing the project's output, increasing your impact and enhancing your recognition as a researcher.
