

Train-the-Trainer on Creative Commons Licenses (CC-licenses) and the Open Data Commons Open Database License (ODbL)

4 Sept. 2018 / 09:00 - 13:00

Funding agencies and publishers are increasingly requesting researchers to make data available in public repositories and databases. When publishing data, researchers should always apply an appropriate usage license that defines permissions and restrictions for others to re-use the data.

The [Open Knowledge Foundation](#) offers a suite of open data licenses, the [Creative Commons](#) (CC) which are implemented by many data repositories and which are broadly recommended for public datasets, e.g. by the European Commission. Correspondingly, the Open Data Commons Open Database License ([ODbL](#)) from Open Knowledge Foundation is applicable to databases.

In this three hours workshop, [Martin von Haller](#) will introduce the different CC-licenses and the ODbL. We will also discuss use cases in order to better understand how and when to apply the different licenses. Participants of the workshop are welcome to bring their own cases for the discussion.

Participants are also welcome to send questions regarding data and database licensing that they would like to be answered during the workshop. Questions can be added in the registration form or sent via email to paml@dtu.dk no later than 28. August 2018.

Registration deadline 28. August

[2018https://www.conferencemanager.dk/DataLicenses/sign%2Dup.html](https://www.conferencemanager.dk/DataLicenses/sign%2Dup.html)

Places available: 70 participants

DTU Library organizes this workshop within the frame of the Danish National Research Data Management Forum.

Programme

09:00 - 09:30 **Coffee & snacks**

09:30 - 11:00 **Presentation on Creative Commons Licenses (CC-licenses) and the Open Data Commons Open Database License (ODbL) – Martin von Haller**

11:00 - 11:15 **Coffee break**

11:15 - 12:30 **Discussion and participants questions – Martin von Haller**

12:30 - 13:00 **Lunch and networking**
